

ABHISHEK ANAND

Full stack Developer

+91-9508679098 | abhishek.664128@gmail.com | LinkedIn | GitHub | Portfolio

Summary

Full Stack Developer specializing in MERN stack with experience in building scalable, high-performance web applications. Skilled in REST API design, authentication & authorization, and performance optimization using Redis caching. Focused on writing clean, maintainable code and delivering production-ready solutions.

Skills

Programming: Java, JavaScript

Frontend: React.js, Tailwind CSS, Redux, Material UI

Backend: Node.js, Express.js, REST API Design, Redis

Database: MongoDB, Mongoose

Tools: Git, GitHub, VS Code, Postman, Firebase, Razorpay

Projects

DailyBrief – News Web Application | *React, Node.js, Express.js, MongoDB* | Live | GitHub **March 2026**

- Built a scalable full-stack news platform using MERN stack, following a client-server architecture for efficient data handling.
- Implemented secure authentication and authorization using JWT with protected routes and personalized user features.
- Integrated Redis caching to minimize external API calls, reducing response time from 2–3s to under 500ms (70% improvement).
- Optimized application performance using debounced search, efficient API handling, and backend proxying to reduce redundant requests and improve response time.
- Built features such as category filtering, trending news, bookmarks, comments system, and text-to-speech functionality for article reading, and deployed using Vercel and Render.

PrepWise.AI | *React, Node.js, Express.js, MongoDB, Firebase, Razorpay* | Live | GitHub **April 2026**

- Built an AI-powered interview preparation platform with resume analysis, AI-generated technical/HR questions, aptitude tests, and mock interviews using AI avatars.
- Implemented automated feedback/scoring, interview timers, session history/reports, and HR behavioral question sets, enhancing user performance tracking and readiness by 40%.
- Developed full-stack RESTful APIs with Node.js/Express.js for resume processing, dynamic question generation, user authentication, and payment integration, handling 1,000+ daily requests.
- Integrated Firebase Authentication (Google sign-in), Redux for state management, JWT-based security, and a credit-based Razorpay payment system, supporting 200+ users with premium features.

Awards & Certifications

- **NPTEL Java Programming (Elite) - IIT Kharagpur(2025):** Scored 72%, covering object-oriented programming and core Java concepts.
- **MERN Stack Development – Sheriyans Coding School (2025):** Gained hands-on experience in building full-stack applications using MongoDB, Express, React, and Node.js, including API integration and state management.
- **Oracle AI Foundations – 2025:** Gained foundational knowledge of AI concepts, machine learning basics, and their practical applications in modern systems.
- **Postman API Testing Certification:** Hands-on experience in API testing, authentication, and debugging REST APIs.

Education

Sagar Institute of Research and Technology

Bachelor of Technology in Computer Science

Bhopal, India

2023 - 2027
